

ANNUAL
REPORT 2014

Help us Provide Global Healthcare

Letter From the President

It is my pleasure and privilege to present the very first annual report of OPERATION MEDICAL - GLOBAL HEALTHCARE. In June of 2013, a group of interested volunteers with plenty of prior experience met at the house of Mary and Charles Jensik in Mechanicsburg to start a new organization with a mission of providing good quality healthcare globally in areas where such care is not easily available. In a very short span following the meeting, we were able to get an office address and space and a clean warehouse - all courtesy of Hersha Corporation.

A Board of Directors was selected to meet the various strategic needs, including healthcare, accounting, legal and financial professionals, of an organization like ours. It has met regularly since its inception and approved the by-laws, including the terms for officers of the Board of Directors. An Advisory Committee was also selected to help guide Operation Medical activities moving forward.

With initial contributions from all of the founders, we successfully acquired a 501 (c)(3) tax exempt status from the IRS as well as affiliation with the Foundation for Enhancing Communities (our fiscal sponsor). Our enthusiastic volunteers sought donations of discarded but usable medical supplies from area hospitals and organized

and packed for our very successful mission to Pierre Payen, Haiti in October 2013 and Valsad, India in January, 2014. Thirteen volunteers participated in the Haiti mission and they performed 39 surgeries besides screening another 200 patients for future surgeries at the medical clinic. Thirty two volunteers participated in the India mission and 216 surgeries were performed.

We have upcoming missions to Malawi (Africa) in October, 2014; Haiti in October 2014; and Mehsana, India in January, 2015. We are also exploring a mission to Kenya in the spring of 2015. We believe that our efforts at bringing good quality healthcare to the underserved areas will make a very small but significant dent in the global healthcare problems.

OPERATION MEDICAL is truly blessed to receive such overwhelming support from everyone. Your contributions, financially and otherwise including good wishes, made it possible for us to have a flying start in the first year. We hope you will continue to support our cause and we promise to do our best in fulfilling the mission of serving the healthcare needs globally with our expertise and dedication.

Sincerely,
Dr. Mukul L. Parikh

We are on a mission to provide healthcare around the world and invite you to join us.

2014 In Numbers

A team is a group of people that work toward a common goal and share in the rewards. A team is more than a collection of people when a strong sense of mutual commitment creates synergy. Operation Medical can only accomplish its goals with the support of our team that includes our donors, volunteers and sponsors. Thank you for a great year! Even if you did not personally travel to one of our surgical cam destinations, YOU helped to make it happen.

While numbers help to summarize our work, the numbers don't tell the complete story. Our safety and quality protocols ensure our patients receive the best care possible. We are committed to providing high quality medical health care and education to communities that do not have access to medical care.

Surgical Mission Trips

October 2013 - Pierre Payen Hospital, Haiti
39 Surgical Procedures/13 Volunteers

January 2014 - Kasturba Hospital, Valsad, India
216 Surgical Procedures/32 Volunteers

A summary of the surgical procedures is as follows:

Surgical Classification	Haiti 2013	India 2014	Total
General	21	111	132
OB/GYN	11	50	61
Plastics	7	39	46
ENT	0	16	16
Totals	39	216	255

YOU helped make it happen.

Operation Medical's First Surgical/Medical Camp: Haiti - 2013

Since its inception in June, 2013 Operation Medical conducted its first mission trip to the Hospital Pierre Payen (HPP) in Haiti. During the mission, the team performed 40 surgeries, including four emergency procedures. The team also assisted in kicking off a new surgery to this facility – cataract removal and alongside local staff completed 39 cases. In addition, more than 70 ultrasound procedures were done and many lab tests were run. 200 patients were examined and screened for future surgeries at the medical clinic. This mission led to great progress for HPP which has endured tremendous hardships since the earthquake in January 2010. John Judson, M.D., team leader was instrumental in making this trip a success. Dr. Judson, who serves as the Vice-President of Operation Medical is no stranger to Haiti. He lived in Haiti for two years and has made numerous short-term trips since 1968. Dr. Judson stated that "This mission would have been totally impossible without Operation Medical. The coordination with them was critical to the success of the mission." While the first trip under the flag of Operation Medical, this team of volunteers has made 4 trips to this hospital and they were very pleased to see the progress being made.

Pierre Payen, Artibonite and Hospital Pierre Payen

The city of Pierre Payen, Artibonite is located 1.5 hours from Port-Au-Prince, the capital city of Haiti. The hospital is operated by Operation Help which has been there since 1967, operating a large school and many community projects. In addition to traditional evangelising and church planting, Project Help has focused its efforts on education, health care, agriculture, and community development. This facility was opened in 1979 as a medical outreach compound, 45 minutes from Borel. Borel is in close proximity to Hospital Albert Schweitzer so medical care is more available there. The hospital in Pierre Payen was built in 2000 and surgical care became available. Unfortunately, full-time surgeons were not available. Since the earthquake that devastated Haiti in 2010, visiting surgical teams have visited the hospital about 6 times a year. Over the four years that Dr. Judson's team has visited HPP, they have observed tremendous progress in the function of the hospital and the efficient use of the surgical team.

Mission Details and Participants

The medical/surgical mission was held at HPP from October 19 through November 3, 2013. The staff of HPP and our volunteers worked together seamlessly under the supervision of Operation Medical's Team Leader and surgeon, Dr. John Judson along with the "backbones" of the group, team co-founder Chip Goodhart, CRNA, and Jen Stoner, pharmacist. They prepared for the mission and provided experienced leadership while on site.

The group stayed in a comfortable guest house and was nourished every day by delicious food that was prepared with great expertise by Haitian cooks. Despite the dormitory style sleeping and cold showers, the team remained in great spirits. Four translators, fluent in English and Creole were used to communicate with the Haitian people for the team.

Professionals trained in OB/GYN, General Surgery, Ophthalmology, Laboratory Studies, Pharmacology and Ultrasound Technology allowed the team to perform a variety of procedures, including:

- Hernia Repair
- Mastectomy
- Hysterectomies
- Cataract Removals
- Ultrasounds
- Gynecology Clinic
- Circumcision for Phimosis
- Large Lipoma Removals
- Cesarean Sections
- Emergency Procedures
- General Surgery Clinic

The 13 volunteers from Operation Medical included 4 surgeons, 2 anesthesia providers, 2 nurses and 5 other healthcare staff. Operation Medical would like to extend a heartfelt thank you to the team, who with their personal finances and time away from work, home and family gave back to others. They are:

Surgeons

Dr. John Judson - PA
Dr. John Reidell - PA
Dr. Elizabeth Vonderhaar - AK
Dr. Jeff Segil - Dover, NH

Anesthesia

Ken (Chip) Goodhart, CRNA - PA
Dr. Teresa Northern - LA

Nurses

Judy Douglas, RN - Canada
Linda Frandsen, RN - Canada

Ancillary

Jen Stoner - PA
Gerri Shettle - PA
Nikki Stocker - PA
Kerri Lee Smith - PA
Kip Barhaugh - CA

During the second week of the mission, the team was able to support the efforts of a local optometrist, as the hospital started their cataract surgery program with Dr. Dennis Cowley. Dr. Dennis Purdy, an ophthalmologist from Indiana performed 40 cataract surgeries. The team was happy to be part of this effort since this was the first time this surgery had been done at HPP. We look forward to returning to the HPP in October, 2014. It is a pleasure to see the great progress in the functioning of the hospital and to be a part of it.

Valsad Surgical Mission Debrief: Operation Medical's 2014 Outreach to India

During a recent surgical mission trip to Valsad, India, Operation Medical was able to perform 216 free surgeries, changing the lives of not only the patients served, but also the Operation Medical volunteers and the staff of Kasturba Hospital, our surgical camp sponsors and hosts. Speaking at a recent meeting of the Board of Directors of Operation Medical, President Mukul Parikh noted that "This was a wonderful mission by any standards. One of the best trips I have been on in terms of the number of participants, chemistry of the group, and the organization of the hospital we visited." Preparation for this camp started in early 2013 and showed the true meaning of collaboration between teams of people coming together to accomplish a common goal.

Valsad and Kasturba Hospital

The city of Valsad (also commonly referred to as Bulsar) is located within the Western Indian state of Gujarat. It lies along the coast of the Arabian Sea and is 120 miles north of the Mumbai airport. According to the 2011 census survey conducted by the Census Organization of India, Valsad had a population of 114,987.

Kasturba Hospital is the largest hospital in Valsad. The hospital does not receive help of any kind, nor financial aid from the government, and survives solely on donations. Much like Operation Medical, the Kasturba Hospital is committed to promoting and providing high quality medical care and education to their community.

Mission Details and Participants

The 6-day camp was held at Kasturba Hospital from January 19 through January 24, 2014. A total of 216 procedures were performed on patients ranging in age from 6 months to 75 years. The average case load each day during the camp was 36, utilizing 6 operating stations in 4 operating rooms. The staff at Kasturba and our volunteers worked together like a well-oiled machine. Our 216 cases included 16 ENT, 39 Plastics, 50 OB/GYN and 111 General.

- Tonsillectomies
- Rhinoplasty
- Thyroidectomies
- Diagnostic Laparoscopies
- Hemorrhoidectomies
- Hydroceles
- Cleft Lip Repairs
- Ear Reconstruction
- Open and Laparoscopic Cholecystectomies
- Tympanoplasties
- Nasal Septoplasty
- Hysterectomies
- Hernia repairs
- Open Myotomy
- Burn Scar Revisions
- Lipoma Removals

The 32 volunteers from Operation Medical included 10 surgeons, 7 anesthesia providers, 8 nurses and 7 ancillary staff. Operation Medical would like to extend a heartfelt thank you to the team, who with their personal finances and time away from work, home and family gave back to others. They are:

Surgeons

Dr. Ken Arthur - PA
Dr. Joel Dean - WA
Dr. Parul Krishnamurthy - PA
Dr. David Leber - PA
Dr. Jose Misas - PA
Dr. Anuj Parikh - PA
Dr. Bipin Patel - NY
Dr. Justin Rosenberger - PA
Dr. Andrew Shapiro - PA
Dr. Julie Sofer - MI

Anesthesia

Diana Davidson, CRNA - PA
Michelle Duell, CRNA - MD
Sue Miller, CRNA - PA
Dr. William Motter - PA
Dr. Mukul Parikh - PA
Dr. Neelima Parikh - P A
Lori Yakish, CRNA - PA

Nurses

Marybeth Connors - DE
Carol Donahue, RN - PA
Sara Lemley, CRNP - PA
Bansari Mandalia, RN - PA
Sheri Matter, RN - PA
Barbara Mummert, RN - PA
Melissa Natividad, RN - PA
Bonnie Pepper, RN - PA

Ancillary

Suril Amin - PA
Rise' Enoch - PA
Maryland Farretti - PA
Mary Jensik - PA
Binita Mandalia - PA
Pratima Patel - NY
Cheryl Peck - PA

Additionally, the efforts of Operation Medical Board Member and Valsad native KD Patel, Operation Medical Advisory Board Member Kiran Patel, Kasturba Hospital Director Paritosh Joshi, Kasturba Hospital general surgeon Dr. N Desai, the local nurses and hospital staff and other local physicians combined to make this effort such an overwhelming success. We will forever hold this trip as a treasure in our hearts.

Upcoming Surgical Missions

Malawi, Africa - October 2014

Operation Medical, in partnership with World Camp, Inc., is planning a surgical camp to Malawi, Africa in October, 2014. Dr. Baker Henson, founder and board member of World Camp Inc, a non-profit organization in Malawi, and an Advisory Board Member for Operation Medical, will take the lead on this venture.

Malawi is in southeast Africa and is bordered by Zambia, Tanzania and Mozambique. Nicknamed "The Warm Heart of Africa", this country is among the world's least-developed countries. The economy is heavily based in agriculture, with a large rural population. This country is a democratic, multi-party government.

With an estimated population of 16.7 million people, Malawi has only 31 registered surgeons. Plagued with a high prevalence of HIV/AIDS, the Malawi people have a low life expectancy and high infant mortality. The average life expectancy is approximately 50 years (ranked 210 out of 223 countries).

Our surgical camp will be located in the capital city of Lilongwe which is in the central region of Malawi with an estimated population of 782,000 people. Kamuzu Central Hospital which is the tertiary referral center for the central region of Malawi, serving about 5 million people, will host our team. The hospital is located about 10-15 minutes by car from World Camp's campus where Operation Medical's team of 24 volunteers will be staying. Estimates of the hospital's size range from 600 to 1,000 beds with actual occupancy always exceeding intended occupancy. The hospital has 3 general surgeons, five floors, four operating theatres, one ICU with four beds and a radiology department with plain films and ultrasound. The only pathologist in Malawi works in Blantyre about 200 miles to the south. Consequently, pathology results take three months to obtain.

Pierre Payan Hospital, Haiti - October 18 to November 2, 2014

Operation Medical is returning to Pierre Payan Hospital. Pierre Payan Hospital is located just north of the busy market town of Montrouis, which is about 2 hours north of the capital city of Port au Prince. Ken (Chip) Goodhart, CRNA, is heading up the trip this year and is planning to have a team of about 17 volunteers.

Pierre Payan Hospital has one major operating room, one minor operating room and a delivery suite. There are about 30 - 40 inpatient beds and a very nice Haitian nursing staff with whom our nurses work.

They always have a number of patients who need elective surgery and hence the need for teams such as ours. It is a safe area and the guest house facilities are reasonable. We do sleep dormitory style and eat family style in a large room which also serves as our meeting room. The food, cooked by Haitian ladies, is wonderful.

Lion General Hospital, Mehsana, India - January 2015

Operation Medical is planning a surgical camp to Lion General Hospital in Mehsana, India. This hospital, located in the state of Gujarat is a 260 bed multi-specialty charitable trust hospital working for the poor people of their community since 1978.

2013 - 2014 Financials

The financial information presented represents Operation Medical's first year in operation. When Operation Medical was formed, the Founders decided to utilize the Foundation for Enhancing Communities (TFEC) as its fiscal sponsor. It was felt that utilizing TFEC would provide Operation Medical financial support and services so that we could focus on growing our organization and allow us to move forward with accomplishing our mission and goals.

Operation Medical filed its Application for Recognition of Exemption under Section 501(c)(3) of the Internal Revenue Code on June 18, 2013 and on December 23, 2013 we were notified that Operation Medical is exempt from Federal income tax effective June 18, 2013.

About Us

Our Mission

Operation Medical is an organization of volunteers made up of trained medical professionals and other individuals committed to promoting and providing high quality medical care and education to communities that do not have adequate access to medical care.

How Are We Different?

Our emphasis is on the medical needs of the community, with the safety of our patients and our volunteers our #1 priority. Our safety and quality protocols ensure our patients receive the best care possible. All trips are carefully coordinated with local hosts and their medical community in order to optimize the success of our visit and make certain our volunteers have a positive experience. We audit results and provide training for all of our partners.

Why We Go

At Operation Medical, we carry our skills across borders to bring about true change and train local doctors to ensure sustainable quality care. During our trips, we strive to provide medical and surgical care to our patients that would provide them with a better life than they would have otherwise had without the care.

Where We Go

Operation Medical does not have boundaries to the types of medical services we are willing to provide or places we will travel. Our team of doctors, nurses and other volunteers donate all services to patients at no charge. To ensure all donated money is used most efficiently to help people in need, most of the volunteers pay their own airfares to our mission sites. Operation Medical does like to provide scholarships to nurses attending missions.

How You Can Help Us

How to Donate

Conducting medical trips is expensive. Funds are needed to purchase, store and transport medical supplies, equipment and pharmaceuticals.

Donations of Medical Supplies, Equipment and Pharmaceuticals

Operation Medical gratefully accepts donations of medical supplies, equipment and pharmaceuticals from hospitals, nursing homes, doctors' offices, medical suppliers and pharmaceutical companies.

If you or your company would like to donate any of these items, please call **717-685-9199** or email info@operationmedical.org for further information.

Donate Online

operationmedical.org/donate

Donate by Phone

To donate by phone please call, **717-685-9199**.

Donate by Mail

Download a printable form at operationmedical.org/donate

Mail your form to:
Operation Medical
44 Hersha Drive
Harrisburg, PA 17102

Checks should be made payable to Operation Medical.

Volunteer

There are opportunities for volunteers to participate in a variety of ways, from serving on a committee to participating in a mission trip. We invite you to contact us at info@operationmedical.org to find out more.

Join A Mission Trip

Operation Medical always needs doctors, nurses, technicians and volunteers to make each mission trip a success. If you are interested in being part of a medical trip or have questions regarding this volunteer opportunity, please call **717-685-9199** or email info@operationmedical.org
